SUMMARY

Full-stack developer based in Dhaka. Since 2023 I have built custom WooCommerce plugins, shipping integrations and payment fixes for store owners abroad. I now build full-stack web apps with Next.js, TypeScript and Node.js. I keep communication short and clear, and I tell clients early if something will take longer than planned.

SKILLS

Full-stack	Next.js, React, TypeScript, Node.js, Tailwind CSS, REST APIs
Data	Prisma, MongoDB
WordPress / WooCommerce	Custom plugin development, checkout and cart customization, PHP
Integrations	DHL (MyDHL API), UPS, USPS (OAuth 2.0), Shippo, PayPal and other payment gateways

EXPERIENCE

Freelance Full-Stack & WooCommerce Developer · Fiverr (Level 1 seller) · 2023 – Present

Full-time freelancing since May 2026. Selected client work:

- Built custom WooCommerce shipping plugins using the MyDHL API and USPS OAuth 2.0; also integrated UPS and Shippo.
- Redesigned the checkout and cart flow for an Australian WooCommerce store.
- Fixed a PayPal payment issue and reduced bot-attack traffic for a client's site.
- Built cart-recovery emails, payment reminders and a product review system for an online store.
- Added review and shipping features for a UK parts retailer.
- Developed a custom plugin for a bilingual (Spanish/English) WooCommerce store.
- Built a myCred + WooCommerce + H5P platform for a fantasy-fiction activity book.

PROJECTS

- **Billr** — AI-powered invoice SaaS. Live | GitHub
- **RentNest** — Property rental marketplace. Live
- **ClientHunts** — Lead-discovery tool for finding freelance clients, using Google Places and web search. Live | GitHub
